Professional Summary

Full Stack Developer with professional experience building scalable web applications using Python, Django, React, Node.js and REST APIs. Passionate about solving real-world problems through clean, maintainable software and continuously expanding expertise in modern web technologies and cloud-based development.

Technical Skills

Languages: Python, Java, JavaScript, C++
Frontend: HTML5, CSS3, Bootstrap, React
Backend: Django, Node.js, Express.js, PHP
Database: MySQL, MariaDB
Developer Tools: Git, Github, Postman, VS Code
AI Tools: Github Copilot, ChatGPT, Claude

Soft Skills

Communication, Project Management, Critical Thinking, Teamwork, Adaptability

Work Experience

1. **Software Developer | TISSER Technologies LLP**
   July 2025 – Present
   - Developed and maintained production web applications
   - Fixed production issues, improving application stability and reducing support request
   - Performed testing and debugging to improve application stability
2. **MERN Stack Development | Uptoskills, New Delhi**
   January 2025 – May 2025
   - Developed AI-Interview Platform using MERN Stack
   - Worked with APIs, databases and AI-ML Concepts

Projects

1. **SkillNova AI: Career Upskilling Platform | Web Development** **2025–2026**
   Tech Stack: Python, Django, MariaDB, Gemini API
   - Developed personalized career upskilling platform
   - Implemented Skill Gap Analysis and Learning Roadmaps modules
   - Integrated AI models for customized learning pathways
2. **AI-Interview Platform | Web Development** **2024–2025**
   Tech Stack: React, Node.js, Express.js, Mongodb
   - Developed candidate and HR portals with role-based access
   - Implemented Interview scheduling and report generation

- Integrated REST APIs, authentication and database integration

3. **Fire-Guard: Fire Detection System | Fire Safety** **2024–2025**
   Tech Stack: IoT, Python
   - Built smart fire detection system
   - Implemented real-time monitoring and trigger mechanisims
4. **Medico: Pill Reminder System | Healthcare** **2023–2024**
   Tech Stack: React Native, Node.js, PostgreSQL
   - Developed Patient and Clinic Portals
   - Implemented prescription management and reminders

Education

1. **Master of Computer Applications (Integrated)** **2020–2025**
   Saintgits College of Engineering (Autonomous), Kottayam
   APJ Abdul Kalam Kerala Technological University
   CGPA: 7.2

Achievements

1. **SRISHTI 2024 | National-Level Project Exhibition**
   Demonstrated an innovative IoT-based vacuum cleaner robot prototype.
2. **GTech μLearn | Web IG Campus Lead**
   Led campus web development initiatives and community activities.
3. **IEDC Execom 2020-21 | FOSS Technical Officer**
   Promoted Free and Open Source Software (FOSS) initiatives and technical activities.

Certifications

1. **Learning Full Stack React**
   Infosys Springboard | November 2024
2. **Databases and SQL for Data Science with Python**
   IBM | June 2024
3. **Python for Everybody**
   University of Michigan | May 2024
